

Tailored 360 Degree Surveys

Create a comprehensive approach to leadership development with tailored 360 Degree Surveys for your institution or system.

Benefits for Your Institution:

Pivot's 360 Degree Surveys are comprehensive evidence based reports that provide institutions with feedback from a range of sources. The data and subsequent reports will provide your institution with a unique insight into the functioning of your leadership team. The reports will highlight trends in data and provide in-depth recommendations for the development of leaders and thus improve the leadership of your institution.

By tailoring questions your institution can gain invaluable insight into areas such as:

- Evidence that supports strategic intentions and registration requirements
- A comprehensive overview of your leadership team's strengths
- Recognition of key growth opportunities for the collective leadership team
- Identification of topics for institution-wide professional learning
- Research-based evidence to inform the next iteration of the institutions strategic plan

2–6 weeks lead time

Benefits for Your Leaders:

The individual recommendations highlighted within the 360 Degree Survey report provide clear pathways for the development and improvement of an educator's leadership skills.

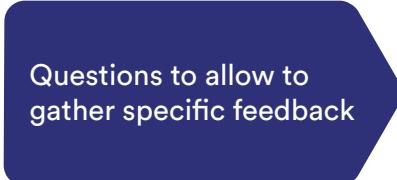

Each individual leader will be provided with the following benefits:

- | | | |
|--|--|---|
|  Access to an evidence-based survey tool with comprehensive results |  Summary results for each leadership element and item |  Extensive insight into their leadership effectiveness and potential |
|  Comparative results by respondent type (self, manager, peers (optional), direct reports) |  Ability to clearly identify their areas of strength and areas for growth |  Confidence in their ability to manage their career progression |

Designing a tailored 360 Degree Survey for your Institution:

Pivot's tailored 360 degree surveys are designed to improve the Performance Development Culture within your institution.

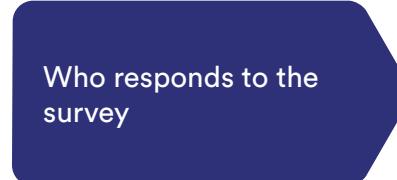

This unique survey allows customisation of:

Questions to allow to gather specific feedback

Reports and recommendations based on your requirements

Who responds to the survey
